The Spiritualist Society of Athens

“The Divine Light”

is a non-profit organization, legally certified in 1972.

It started as a spiritualist circle in the early fifties in Athens, Greece, with various mediums taking part in the early communications.

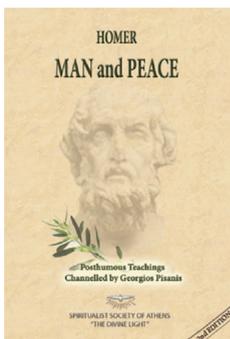

However, the only Channel that received messages from the Highest Order of the Spiritual World has been Mr. George Pisanis (1905 - 1979).

The texts published by the Society include communications of this special Channel in the period 1961 - 1979.

These texts are Teachings from the Leaders of the Spiritual World, the highest Authority of the Kingdom of Heaven. They have been called “The Divine Light” and they address the whole humanity.

Among the Spirits that transmitted the texts are ancient Greek sages, Indian gurus, Chinese philosophers, distinguished Western entities of the letters, science and philosophy, great music composers, etc.

The main purpose of the Society today is the publication of these spiritualistic communications. There is an ongoing effort to translate all texts in the English language first, since the Divine Light was given by divine grace for all people on Earth.

About Spiritualism

Spiritualism has essentially to do with the contact of the two worlds, the Earthly one and the Heavenly one. The existence of the Spiritual World is a fundamental reality of all religions. In fact, people's innate religiosity is based on the ability to communicate with the world of spirits.

Therefore, Spiritualism includes all the phenomena that take place during the contact between the two Worlds, because these phenomena are expressed by the energies and forces of spiritual entities, that is, spirits.

Through the centuries and in every culture, people sought contact with the invisible world of spirits. Priests of ancient Egypt, Pythias of ancient Greece, gurus of India, shamans, lamas, priests of all religions and generally all those who pray and meditate, in essence communicate with the Divine, to receive help and guidance.

What rekindled the interest in Spiritualism was indeed the thirst of the advanced human spirit to find satisfactory answers to eternal, existential questions such as "Who are we?", "What is our purpose on this planet?", "What happens after death?" ", "Is the soul immortal? ", and more. With the various spiritual phenomena, it soon became apparent that the psychospiritual entity continues to exist after death and that the personality seems to be preserved. We now know that man is a psychospiritual entity (that is, he has spirit and soul, inextricably linked) and it is this entity that continues to exist after the death of the material body.

Within this framework and global interest for spiritual phenomena, the Spiritualistic Society of Athens "The Divine Light" was born.

The image of the back cover comes from the selection of visions of Maria Lyra (+2003), an honorable member of the Society.
