Discovering the Indian Gurus

Message from the Editor

This issue is dedicated to Indian Gurus who have given Teachings from Heaven as part of the Divine Light Texts. Among them are Gurus and Swamis of modern time, such as Sri Yogananda, Sri Yukteswar, Lahiri Mahasaya, Babaji, as well as ancient Teachers, such as Rama, Krishna, Gautama Buddha, etc.

The most ancient of all Indian Teachers has been Archon Pharah, to Whom our previous magazine issue was dedicated. These Indian Gurus belong to the Religious Sector in the Heavenly Kingdom and have given speeches related especially to religion. In Heaven, they have recognised Lord Jesus Christ as the Leader of the Heavenly Kingdom and they give us insight about the future unification of all religions.

The Texts presented in this issue come from our publication “SPEECHES of GREAT MYSTICS”.

The work of the gurus on earth

Sri Yukteswar

My dear ones, you had the curiosity to learn a few things about the Gurus on Earth and today higher Spirits of the Spiritual World. I was also one teacher, who, through his toil and effort managed to climb up the scale of the Spiritual World from Earth. I would not be known to you had my good and dear pupil Yogananda not come first, whom the Lord rewarded as it was suited to him. We belong to another sector inside the Spiritual World. This is the Religious Sector, which is totally different than the religious sectors of your Earth. We follow the divine energy of the Lord inside the soul of the human beings. Our introspection is a difficult work but worthy of praise because we strengthen the soul in such a way, as to impose itself upon the spirit. It does not matter if we are in Heaven or not; we also have the ability here, which is more complete, to exert our influence upon the people.

I will try to present myself as I was in the visions of my brethren. I say that “I will try”. I am in a position to present myself but it depends on what the Lord will also say, because everything depends on Him. I will ask from the Supreme Authority to give me the freedom not only for my speech but for my vision, as well, as I was on Earth, so that I am recognized by you. I will also teach you different aspects of the Spiritual World. I will come in due time. I have near me many like my- self, who keep a perfect order and do not ask to speak, unless the Supreme Authority gives them the word.

Because I cured many of my brothers on Earth with the force “AUM”, this is why I can easily from Heaven penetrate into where there is need and cure through the strengthening of your faith. I love man and I attend to his salvation. I give directions to many pupils of my pupils; this is why new horizons are rising today upon the teaching of the Yogis. At the same time, you have in your disposal the greatest light of Knowledge and this is a proof of the incoming of the great Spirits in your gatherings. I wonder why the one who has this grace does not pay so much attention to the words of Heaven. Must Heaven come down to Earth, brother, so that you believe in it? Take Yogananda as an example, who was a pious spirit, faithful and worthy of the protection of the Lord.

Do not be surprised that I mention the name of Christ very often. When the fanatic men, whether they are Christians or of other religions, come here, then they will understand the completed truth and they will be convinced about what Christ was and why He was called God.

QUESTION: One clarification. When you say “visions”, you mean that you will present yourself during sleep?

— The vision, brother, is not a dream but when you are wakeful, in other words calm in the soul and in the spirit, then the apparition appears in front of you and it can have flesh and bones, if you examine it. This will be a deception of matter but a true appearance of the Spirit, so that it verifies its life in another World, superior, which is called invisible.

Sri Yukteswar

About the word “Mantra”

Lahiri Mahasaya

Today, my dear brethren, I will speak to you about a word, which is the following: “Mantra”. What does it mean, though? It means the Word, which reveals; that’s why this word is sacred. Through the word Mantra I was able (after many exercises and meditations) to perform miracles. Therefore, miracles are not myths, as few of the wise, uneducated men claim.

It is almost impossible for you to understand what a miracle is. Indeed, how is this possible, when you are holding a plate in your hands for this to be transformed into a book or the book to be transformed into another object or a delicacy? I ask science if it was ever able to transform darkness into light; not in its imagination but in reality. If it ever achieves that, then stop believing in me.

The means, which transforms everything according to the wish of the Yogis is the divine will. This powerful force, unknown to all, is only known to those who are members of it.

Swami will also visit you. He is the one, who managed, from being a plain man to ascend to divine heights with the power of his character and the imposition

of his word. Other unknown Gurus will come, as well, to teach you, since you have opened a new page for them.

Lahiri Mahasaya

All religions will be connected into one

Mahavira

I come for the first time. I am an Indian, founder of a Religion. Despite my knowledge, here in Heaven I received a new enlightenment. On Earth, I could not believe that there exists One God, as man perceives Him. I recognized that a Supreme Force rules everything and that man has a small dose of this Force inside him. And I said: "Through the exercise I convince myself that I strengthen the divine energy inside me, so that only through the good and pious I will be able to impose myself upon those who need me". You see that I was right, in part, but this was something undefined for my spiritual power.

Today I have the position of a Teacher because I was enlightened so much, as to acquire divine knowledge and guide my descendant Yogis with a sequence of enlightenment that is based on different foundations from the ones that I was teaching then.

Today you are more enlightened than in my era. Not esoterically, however, only spiritually.

I cultivate the esoteric learning of the Yogis, who have changed direction because they have also realized the deceptions of their fathers, so that we keep pace with each other religiously. Because the Lord intends to connect all the religions of the World into one and the same religion, and then nobody will be able to escape from this chain. This is where we are heading.

In any case, the Christian Religion is entering into the fields of the other beliefs, despite the fact that the Christians themselves are forgetting their path and wait for miracles to happen, in order to return to it! They will have them! Because matter attracts them and through matter they will believe in the Invisible World.

They will not have the appropriate favor of the Spiritual World, however. This favor will be given only to the ones, who believe without material proof but just through the logical sequence of the Word, which has created this world.

The Word is not a voice. It is a thought, which is transmitted through the irradiations and can be transformed into phonetic sound, in order to boost your morale.

Mahavira

I taught about the existence of God

Krishna

I come for the first time, my dear ones. We, the Great Mystics, have the right to appear where the Lord specifies. Today I will not recount my life, which is interwoven with myth. You will ask why. Because if it was not surrounded by myth, we would not have followers.

I was much more ancient than Buddha. Buddha has walked on my steps but he did not accept God. He said that God did not exist whereas I had enclosed Him inside me. I am the first one who taught the existence of God to the unlearned crowds.

I knew something about the existence of an Archon of the Spirit, whose name was Pharah. And from the very few things that spread around, I was able to deduce about his divinity.

For me, my dear ones, science is vanity. Scientists come and go and only their memory remains, whereas the living scientists acquire earthly glory. Pure Science is only that of Heaven.

When you, the Spiritualists, say that you exercise scientific control, give me to understand how you exercise it. A scientist and a simple spiritualist use the same means? Where do you see, therefore, that what science says is all true? Since, as spiritual men, you are not able to give a correct definition, how is it possible through science to know what cannot be perceived? God enlightens you so that

you are modest and not egoists, because egoism reduces your knowledge and you come back to the beginning of the enlightenment.

As a man, of course, I also had some shortcomings, which I managed to overcome through my toils and efforts. I greatly thank the Lord for allowing me to speak through His special medium. I will return, because with one simple séance I can- not give all the things that the dear followers of the Spiritual World need to know. The great teachers of India know very well what my spirit was, upon the human entity. It is redundant for me to repeat the same. I will refer to God and to the Lord, Whom many of you, teachers of your Earth, consider to be of equal value. The Lord has been an Indian in one of His past lives. He has come three times, not to be atoned but with a mission. In the third time, he achieved what nobody else has: To found a Religion, or rather a pure Philosophy, with eyes. He is the Archon of Our Kingdom. And His Spirit, as you know, is Archon Pharah or, to understand it better, the Holy Spirit.

I am very pleased because I found you all focused on the Spiritual World. Because the Spiritual World comes to you since you are not able to ascend to Us. Very few people, however, like the great Gurus, are able to ascend to Us.

I convey to you the blessings of the Lord.

Krishna

There is no comparison between Christ and the great Mystics

Rama

I come with the blessings of the Almighty. I must give you my identity. I am the most ancient of the Mystics. I started from Europe and actually from the North. I reached Persia and from there I departed for the highest mountain of India. I was the first to enlighten all my successor Mystics, like the known ones of the various eras, Buddha and the rest.

People consider me as the first to teach the Mysteries of Heaven. This is incorrect. There were others, who were forgotten with the passing of the centuries. The most ancient of all and the first to teach Monotheism was Archon Pharah.

I created gods, in other words I realized that man cannot base himself only on one Principle and from necessity I ascribed the various energies of Nature to gods. I believed in the One and only God, Who was Unknown for me. I knew that I was sent from Heaven to open new ways for enlightenment, not only of a small area but of the whole World. The Vedas are mine. In there I describe symbolically the Mysteries of the soul and the spirit.

I said that my name is Rama. And I came to Earth, in order to guide first the White Race, which was also the privileged one in the perception of the spirit. All the Great Mystics of the various eras walked upon my steps.

Before me there was also another Mystic, whose name was Siloam. He taught in Tibet. Do you know who he was? He, whom you honor today: Christ.

We, the Mystics, are Superior Spirits that from era to era are sent from the Kingdom of Heaven to enlighten your World. None of the Great Mystics was ever able, however, to surpass the Divine Grace of the Lord, in other words Jesus Christ. If there are many in your World that compare the life of the Great Mystics with that of Christ, they are not people with clean conscience. Their words may attract. But none of you knows their actions.

My own history is not like how many people have written it. It contains many myths. And I should have appeared to you as a Leader of the faithful of the Far East, in order to clarify a few necessary points, which you should not forget.

The First Cause indicated Christ as the Son and Savior of your World. Let the finicky ones believe it, if they want to; otherwise, it will be too late when they ask for the help of Christ here. Not because Christ will not want to help them but the First Cause will stop Him, in other words His Laws, the so-called Values of the Universe World.

I am Rama, the plain and obedient servant of the Lord.

Rama

The world religion should be one

Sri Yogananda

On behalf of the Divine Principle I bless the dear brethren and the friends of this Center.

I don't think I have to introduce myself. My name is known so much in my country, as well as in the West. I worked hard in my life because in the hardness of my exercises I was able to come into contact with the Supreme Principle, without me of course knowing This as a material picture. I developed inside me this intuition, so that through the intuition I saw and I sensed This great Force of the Universe World.

I am one of the first Teachers, who realized the great mission of Christ on Earth. We, as Indians, belong in the category of the Monotheists and as leaders we had Krishna and Rama. There were others, too. The Greatest of all, who remained un-known in our country, on purpose, was He whom you now call Archon Pharah, Who taught but left no written word in that holy place, Delhi. In another incarnation, he composed works in ancient Egyptian, which were lost. They will be found some day. They are the most correct from what was written until his era. These works belong to Enoch, who is none else but brother Pharah.

The movement of the various dogmas of the Christian religion is advancing and the dogmas must be eradicated, in order to be unified with the rest of the World's religions. GOD is One! The Holy Trinity is One! And one ought to be the world's religion, which is aiming for peace, in order to sow Love. Without Peace, this flower that Heaven calls Love can- not blossom.

We have attended to it, that the great Teachers of India after our time come into contact with the West and cooperate for the good of Humanity. Unfortunately, the obstacles are many. They will be put aside because this is a Divine will. And the representatives of the various beliefs ought to clean up their religions from the daemons.

Those who believe in the circular Serpent are the worst of all human beings. They are the most cunning and dark in their decisions and actions. Them, the Deity will punish.

Sri Yogananda

Prophecy

Babaji

QUESTION from a member of the Society: I request from the great brother BABAJI to tell me, regarding his prophecy, that, during the 2nd half of our century, the general situation will change for the good of humanity. Is this true?

Thank you, A. P.

BABAJI: My dear brethren, today you are precisely in the most crucial moment of my prophecy. The whole global situation stimulates all the people of the world to attack the same target, which is the source of misfortune. The conflagrations have started and continue at a fast rate.

After the great motion, which is spreading, and many other things, the Peaceful Light of freedom will rise. The United States will suffer great damages. Russia will change its regime. Europe will become a huge power. It will include Eastern Europe. Greece will change form. It will be transformed into a mirror and, through its reflection it will give new light to the World. Turkey will suffer a miserable defeat. Cyprus will be annexed to Greece. And many other things, which you cannot imagine. Israel will pay for everything, because this was the cause for all these calamities that happened to humanity. Africa will cooperate closely with Europe. Evil will pay, Goodness will enjoy.

Babaji

I found the truth inside me

Gautama Buddha

In the name of the Almighty and Only Deity, I bless the dear followers of the Spiritual World.

My dear ones, my story is full of myths. There is no comparison between Christ and myself. I lived as a very rich man in the palace of India. I enjoyed life like nobody else. Later I was converted and my soul guided me to the path of austerity, even poverty. I suffered a lot searching for the Truth, which I much later found inside me.

I taught the uneducated people of my era. I gave them orders, how they could reach the highest offices. I had the impression, though, that God does not exist but a Force, unspecified in the Infinity. For me the Supreme God was Love. But I taught this through self-sacrifice and this is where I made a mistake. I exceeded the limits of Love by wanting to transfer it from Heaven to Earth, whereas I should have transferred it from Earth to Heaven. This is what Christ did.

Not all my perceptions were correct. I taught that the body has no value to man. On the contrary, Christ taught that the body is God's gift to man. I taught that woman is one of the lower beings. On the contrary, Christ elevated her in everyone's eyes. It is not so much my fault for this knowledge of mine but the manners and customs of that era were behind.

Today there are many of my followers in the whole Far East. But, little by little, their faith in me is diminishing. The people, who study in depth discover that Christianity is what gains in power. And this is proven from the fact that in Japan, 40.000.000 people believe in Christianity. I do not mention how many people have accepted it in other countries, as well.

And again, another one from India, whom you know and in the near future will speak to you, will be the one that will tie all religions into one and the same, in other words in Christianity.

It is not necessary for me to tell you that the Supreme Archon of the Spiritual World is Lord Jesus Christ. All of us are servants to Him, irrespective if in our homeland we created a Religion that is inferior in form to that of Love, as is the one of Christ. He, in other words Christ, is leading His Kingdom and we, those of us who are in the higher scales of the Spiritual World, are His simple Worshipers.

When, however, I speak from Heaven about the Christian Religion, I do not mean its Clergy, which has distorted everything to the detriment of this unmatched religion of the Christians. If the faithful do not execute their duties as they should, then the fault, my dear ones, is of the Shepherds, who have a bad reputation in Heaven. I do not want to expand more on this matter because I am not the appropriate one.

Please accept, as faithful in the Spiritual World, my blessings from Heaven.

Gautama Buddha

“Courage”

Parahamsa Yogananda

Do not take the experiences of life very seriously! Above all, do not let them harm you because, in reality, they are nothing else but experiences of a dream!

If the conditions are difficult and you must endure them, do not make them a part of yourself. Play your part in life but never forget that this is only a role you play. Keep in mind that, what you lose in this world will not be a loss for your soul.

Trust in God and destroy fear, which paralyzes all your attempts for success and attracts exactly what you fear!

Rise above an ordinary life, to a higher sphere. The whole Nature will communicate with you, when you are in resonance with God!

Learn the Eternal Truths, which is the spiritual inheritance of man. The assimilation of these Truths will make you rulers of your destiny, just like the Great Teachers found the eternal life through wisdom!
